SHIVANI ENGINEERING COLLEGE

Department of Computer Science and Engineering (Cyber Security)

Project title

TO SUPPLY LEFTOVER FOOD TO POOR

TEAM MEMBERS

Team ID : NM2025TMID06106

1. RAGU M
2. GOKULAKRISHNAN S
3. EZHIL G
4. MOGANAPRIYA B

Guided by
Mrs.N.Archana

Platform: Salesforce Developer

Data of submission: 05/11/2025

Project Description

This project aims to collect surplus or leftover food from restaurants, hotels, events, and households and distribute it to underprivileged communities. By creating an efficient food collection and delivery network, the project helps reduce food waste while addressing hunger. Through collaboration with volunteers and local NGOs, the initiative ensures safe, timely, and hygienic food distribution to those in need, promoting social responsibility and sustainability.

Creating Developer Account

In this step, a new Salesforce Developer Account is created using a valid email address. This account provides access to the development environment for project setup.
